

# Historic Renovation—Interiors

## Columbus, Ohio

The Old Governor's Mansion, vacated for several years, was transformed from a residence for the Governor of the State of Ohio into a corporate office for an international design firm. This renovation of the three story structure contained approximately 15,000 square feet with an open atrium, elaborate woodwork, and historic details.

The project scope included Architectural changes, repairs, and renovations to the interior of the building, interior space planning for offices and open landscape interiors, and interior design of the structure.

Mr. Baker was the Project Architect\*, responsible for all phases of the interior renovation, space planning, and construction. Construction was completed under budget and ahead of schedule. The project was awarded a Nation Design Award for Excellence.
